- ISO 9001

Corporate Social Responsibility

Datasec recognizes the profound impact of technology on today's youth and believes in fostering a safe and secure digital environment for them. Our commitment to Corporate Social Responsibility extends beyond our business operations, as we actively engage in initiatives that contribute positively to society, notably through our CSR program, the Mlinzi Campaign.

Our current CSR endeavors are centered around raising awareness about technology safety among children and teenagers. In an increasingly interconnected world, it's imperative that young individuals are equipped with the knowledge and tools to navigate the digital landscape responsibly. Through workshops, seminars, and educational campaigns as part of the Mlinzi Campaign, we aim to empower teens and their parents with the information they need to make informed decisions about online activities through the CyberSafe Kids, CyberSafe Teens and CyberSafe Parenting Programs.
